Brave x STEM Santa Fe Day Camp for Girls

STEM Santa Fe is partnering with the Chicago-based educational organization, Brave Initiative, to bring a one-of-a-kind STEM summer day camp to Santa Fe. BraveCamp allows girls to come together to innovate, design and create. There are BraveCamps in 7 states and STEM Santa Fe is bringing this unique camp to New Mexico for the first time. STEM refers to Science, Technology, Engineering, and Math, areas of learning that are critical to nearly every vocation in today's society. The summer day camp will be a week-long, hands-on immersion into computer coding and app development. No coding experience is required. The camp will culminate with qualified apps being submitted to the Congressional App Challenge, an annual event in Washington DC, that aims to have students learn to code by having them develop their own apps.

STEM Santa Fe invites girls who will be entering eighth and ninth grade to apply. "STEM Santa Fe is a local non-profit organization that endeavors to see every child reap the benefits of STEM programs and education. This camp is a fantastic opportunity for young women to showcase and enhance their coding skills." said Lina Germann, Founder and Chief Executive Officer of STEM Santa Fe. STEM Santa Fe is fortunate to provide this day camp free of charge thanks to the generous support of LANL Foundation, Santa Fe Community College and Brave Initiatives.

Space is still available, but limited. Applications are available online at www.STEMSANTAFE.org, or by calling (505)570-5402.

What?

App Development Camp for Girls

Where?

Santa Fe Community College
6401 Richards Ave., Santa Fe, NM 87508

When?

Monday, July 29th through Friday, August 2nd, from 9 AM to 5 PM
(lunch is provided)
Saturday, August 3rd, from 10 AM to 12 PM

Who?

Rising 8th and 9th grade girls from Northern New Mexico
By application only.

STEM Santa Fe advocates for, develops, and provides Science, Technology, Engineering and Mathematics (STEM) programming, mentoring, and resources for all youth, to realize their potential and expand their opportunities in a dynamic world.
